DOCH

MF HUB

Advanced smart connectivity hub engineered for fast and stable communication.
Designed to centralize and simplify your smart ecosystem experience.

HUB

Powerful central control hub for reliable and intelligent device management.
Built to deliver seamless connectivity across your smart home network.

SAMI FLEX

Flexible smart automation controller built for reliable and efficient connectivity.
Designed to simplify smart device integration with seamless performance.

SAMI PRO

Advanced smart control solution engineered for powerful home automation management.
Delivers fast, stable, and intelligent connectivity across your ecosystem.

LOCK PRO

Premium smart security with advanced access control and modern intelligent features.
Designed for seamless protection with a sleek luxury finish.

LOCK RETRO

Compact smart locking solution built for secure and effortless everyday access.
Combines minimalist design with reliable modern security technology.

VIA

Designed for
DOCH

LOCK MINI

Elegant smart lock engineered for compact spaces and modern interiors.
Delivers secure access with a clean and sophisticated design.

SENSORS

Intelligent safety sensors designed for real-time monitoring and instant alerts.
Enhances smart security with reliable smoke, vibration, and siren protection.

CURTAIN MOTOR MINI

Compact smart curtain motor designed for smooth and silent automation control.
Blends elegant design with effortless smart shading performance.

CURTAIN TRACK

Premium automated curtain track engineered for seamless and precise movement.
Designed to enhance modern interiors with smooth smart curtain operation.
